

**FEMA**

May 31, 2024

Susan Simon  
Planner IV  
Tulare County  
5961 S. Mooney Blvd  
Visalia, CA 93277

Dear Susan Simon:

The *Tulare County Local Hazard Mitigation Plan* has been amended to include the Cities of Tulare, Dinuba, and Visalia as official planning participants. These cities must each submit an adoption resolution to FEMA in order to be considered fully approved.

FEMA's approval of the *Tulare County Local Hazard Mitigation Plan* remains for a period of five years from the original approval date of **April 18, 2028** for all approved participants. An updated list of the status of current participating jurisdictions is enclosed with this letter.

Prior to **April 18, 2028**, Tulare County and all participating jurisdictions are required to review and revise the plan to reflect changes in development, progress in local mitigation efforts, and changes in priorities, and resubmit it for approval in order to continue to be eligible for mitigation project grant funding.

The continued approval of this plan ensures Tulare County and all participating jurisdictions' continued eligibility for project grants under FEMA's Hazard Mitigation Assistance programs, including the Hazard Mitigation Grant Program, Building Resilient Infrastructure and Communities Program, and Flood Mitigation Assistance Program. All requests for funding, however, will be evaluated individually according to the specific eligibility, and other requirements of the particular program under which applications are submitted.

If you have any questions regarding the planning or review processes, please contact the FEMA Region 9 Hazard Mitigation Planning Team at [fema-r9-mitigation-planning@fema.dhs.gov](mailto:fema-r9-mitigation-planning@fema.dhs.gov).

Sincerely,
