CERTIFICATIONS FORM

I have read the Eligibility Criteria and Program Guidelines and I agree to **ALL** the following terms and conditions by **signing below**:

- I have not chipped, nor will I begin chipping, any of the acres of the orchard/vineyard to be removed at the above-described location referenced in this application until I have an executed voucher. Additionally, if selecting the air curtain burner practice, I have not disposed of any of the material to be removed until I have an executed voucher.
- I understand that the chipped material must be used for soil incorporation (whole orchard/vineyard recycling), on-site land application, off-site beneficial re-use (mulch, composting, land application near roadways for dust suppression, and other District approved beneficial re-use of the chipped material), or other District approved practices, and cannot be used in any combustion practices including, but not limited to biomass power generation and pyrolysis, with the sole exception of air curtain burners, which may only be used to dispose of diseased material or material with embedded wire, such as cordon (spur) pruned vineyard material.
- I understand that no portion of the agricultural material from the orchard/vineyard removal can be burned or used in any of the aforementioned combustion processes with the sole exception of air curtain burners, including (but not limited to): leaves, branches, trunks, roots, stumps, untreated sticks, grape vines, grape canes, and untreated grape stakes.
- I understand that submission of this application does not guarantee incentive funding for the project.
- I understand that the final funding amount reimbursed may be less than the maximum incentive amount if the final invoice amount for the project is less than the maximum incentive amount or if the final project is different from the proposed project. For example, the project proposed and funded was 100% soil incorporation but the final project was 50% with soil incorporation and 50% without soil incorporation.
- I certify that I will continue to use the acres referenced in this application for agricultural use.
 - The property undergoing an orchard removal will remain a commercial agricultural operation, consistent with District Rule 4103 – *Open Burning*, and Section 80100 of Title 17, Code of California Regulations, which provides for the open burning of agricultural materials produced wholly from agricultural operations in the growing and harvesting of crops or the raising of fowl or animals for the primary purpose of making a profit, providing a livelihood, or conducting agricultural research or instruction by an educational institution. Land conversions intended for non-agricultural purposes are not eligible for funding.
 - The orchard/vineyard to be removed at the above-described location is from a commercial agricultural operation.
 - The removal of this orchard/vineyard is **not** for the purpose of preparing the land for a commercial, residential, or other non-agricultural use.
- I understand that the selection of a third party contractor to perform any or all of the project is completely my choice and the District does not endorse, or is not in partnership with any such contractors and shall not be responsible for any disputes arising from the work performed between the applicant and the contractor. The District will not be held liable for any disputes, circumstances or events that occur between the applicant and contractor. Contractors are independent contractors; they are not officers, representatives, agents, servants, employees, partners, associates, or joint ventures of the District.
- Projects funded by District will not be used as marketable emission reduction credits, to offset any emission reduction obligation, or for credit under any federal or state emission averaging, banking and trading program. In addition, projects funded through this program may not be used to generate a compliance extension or extra credit for determining regulatory compliance.
- Any current financial incentive that directly reduces the project cost, including but not limited to, tax credits or deductions, grants, or other public financial assistance for the same project, must be disclosed to the District.
- I certify that I am currently in compliance with all federal, State, and local air quality rules and regulations and I am not aware of any outstanding or pending enforcement actions.
- I agree not to make a payment towards, or begin chipping of the orchard/vineyard removal prior to receiving a valid voucher from the District. Additionally, if selecting the air curtain burner practice, I agree not to make a payment towards, or begin disposing of any of the material prior to receiving a valid voucher from the District.

I hereby certify that all information provided in this application and any attachments are true and correct to the best of my knowledge.

Agenda #: 5.

Agenda Item Wording:

Award a Contract for Walnut Orchard Demolition and Removal and Appropriation of Funds -

Award a contract to JFS Enterprises for Walnut Orchard Demolition and Removal in the amount of \$495,000 to demolish and remove 130 acres of Walnut Orchards surrounding the Water Reclamation Facility (WRF), and appropriate \$550,000 from the Wastewater Fund.

Deadline for Action: 11/18/2024

Submitting Department: Public Works

Contact Name and Phone Number: Nick Bartsch 559-713-4428 ; Ben Litwack 559-713-4671 ;
Rehana Cale 559-713-4176

Department Recommendation:

Staff recommends that the Council authorize staff to enter into a contract with JFS Enterprises in the amount of \$495,000 for the demolition and removal of the 130 Acres of Walnut Orchards surrounding the Water Reclamation Facility (WRF) in accordance with RFB-24-25-18; and appropriate \$550,000 from the Wastewater Fund (431).

Background Discussion:

Based on the health and condition of the walnut orchards, historical and projected crop production, and associated uncertainties related to groundwater sustainability regulations, the City Council directed City staff to stop farming the 130 acres of Walnuts in December 2023. This direction also included the removal of the walnut orchard and the exploration of long-term lease options that would be compatible with the Wastewater Treatment Plant operations.

Request for Bids RFB-24-25-18: Walnut Orchard Demolition & Removal was advertised in the Visalia Times Delta on September 25th and October 1st, 2024. Notices were sent to 57 agricultural contractors, 24 tree service contractors and posted on BidNetDirect online. A pre-bid meeting was held on October 8, 2024 and several Contractors attended. Based on the pricing recently experienced for similar work on the City's East Side Orchard Removal Project, staff estimated these costs to be \$975,000. On October 22, 2024, the City received eight (8) bids, with JFS Enterprises being the lowest bid.

Bid Summary:

1. JFS Enterprises	Fresno, CA	\$ 495,000
2. Kroeker	Fresno, CA	\$ 595,000
3. Nates Tree Service	Sonora, CA	\$ 605,000
4. Ares Engineering	Tollhouse, CA	\$ 795,250
5. HD Mathews Demo and Excavation	Fresno, CA	\$ 860,323.12
6. Ag Industrial Enterprises	Earlimart, CA	\$ 886,396.20

8/15/24
50

7. DSB Ag Services	Williams, CA	\$ 961,940
8. Katch Environmental	Fresno, CA	\$ 1,415,000

Staff has reviewed JFS Enterprises' qualifications and their provided references and found them to be properly licensed with a positive work history. Additionally, JFS Enterprises is the current contractor on the East Side Orchard Removal project, which is underway and progressing satisfactorily.

Fiscal Impact:

The farmland surrounding the Water Reclamation Facility (WRF) is owned by the Wastewater Fund (431) and operated under the Farming Division (4344). Therefore, costs associated with the operation, and the subject tree removal, are paid by the Wastewater Fund (431). Staff is requesting the appropriation of \$550,000 to cover the cost of the removal contract and provide a contingency to address any unforeseen conditions that may be encountered.

Based on the prior direction from City Council to take these walnuts out of production, Staff recently submitted a proposal to the Greater Kaweah Ground Water Sustainability Agency (GKGSA) to fallow this land, under their 2024-2025 Fallowing Program. The program is offered to Growers within the GKGSA's jurisdictional boundaries in an effort to reduce demand on the groundwater resources of the GKGSA, thus reducing impacts to domestic and irrigation wells, and move toward groundwater sustainability. Subject to Council's acceptance and approval of a land-fallowing agreement with the GKGSA, under this program, the land shall remain fallowed from October 1, 2024 through September 30, 2025. In turn, the City would receive \$500 per field acre that is fallowed. Therefore, if accepted, this would equate to approximately \$60,435 in revenue that could ultimately be used to offset the impact of these one-time expenses of removal.

Prior Council Action:

- December 18, 2023 - City Council was presented an update to the city-owned farmland and farming operations and provided direction to cease farming operations of the 130 acres of walnuts.
- February 16, 2021 - City Council was presented an update to the city-owned farmland and farming operations.
- February 19, 2019 - City Council entered into a contract with Jeb Headrick Farming for an annual not to exceed amount of \$1,000,000.
