See Section III for additional Department of Industrial Relations Requirements which apply to this project.

**Local Vendor Preference:** In an effort to encourage local businesses to provide goods and services to the City, Council has enacted a local preference. The local preference will apply to any business that has a business address within Tulare County for a minimum of six months. A Post Office Box will not be accepted as a business address. The City reserves the right to request proof of Tulare County address.

The local preference for bids consists of a match preference in which a local vendor whose bid is within 5% of the apparent low bidder will be given three (3) business days, from date notified, to match or beat the low bid. If there is more than one local vendor that is within the 5% range, the offer goes to the local vendor that is closest to the low bid.

## **V. SCOPE OF SERVICES/PROJECT**

This request is for an hourly rate to transport approximately 7,000 tons of biosolids from the City of Visalia Water Reclamation Facility located at 7579 Ave 288, Visalia, CA 93277, to the Visalia Disposal Site (Landfill) located at 8614 Ave 328, Visalia, CA 93291. The City will provide equipment and labor to load the biosolids into the transport vehicles. The City will be responsible for disposal fees.

Transportation of the biosolids may be requested one or more times annually, depending on weather conditions and the availability of the landfill to accept specific quantities of the biosolids. The City will coordinate with the Landfill on availability to accept the biosolids and at what quantity prior to contacting the Contractor. In the recent past, the County Landfill has been able to accept a maximum of 300 Tons per day, 3 days per week. The City is hopeful that the County Landfill will continue to accept the same quantities for the upcoming years.

Ideally, the hauling of the dried stockpile is accomplished no later than December 31, 2024 of the following year. Unfortunately, due to the volume, it is sometimes necessary to begin hauling sooner to make more space available for the drying of materials for the current year.

At this time, some of the 2023 stockpile of biosolids have already been transported to the Landfill. The remaining 2023 stockpile (if any) will need to be removed and transported shortly after this contract is awarded (and no later than December 31, 2024).

It is anticipated that the hauling of the 2024 stockpile will begin in the Spring of 2025 (although it could be required earlier in the year if the stockpile is dry enough. Enough of the stockpile will be removed to create the space needed for the biosolids being generated in 2025.

Note: If the hauling of the 2024 stockpile doesn't begin until July or August of 2025, the hauling would need to continue until the entire pile is removed or no later than December 31, 2025.

### **GENERAL REQUIREMENTS:**

Contractor shall furnish and use, at his own expense, all labor, trucks, trailers and fuel necessary to provide the contractual transportation and disposal of the biosolids.
