Redistricting Rules and Goals

1. Federal Laws

- Equal Population
- Federal Voting Rights Act
- No Racial Gerrymandering

2. California Criteria for Cities

1. Geographically contiguous

2. Undivided neighborhoods and "communities of interest"

(Socio-economic geographic areas that should be kept together)

3. Easily identifiable boundaries

4. Compact (Do not bypass one group of people to get to a more distant group of people)

3. Other Traditional Redistricting Principles

- Minimize voters shifted to different election years
- Respect voters' choices / continuity in office
- Future population growth
- Preserving the core of existing districts

Prohibited: "Shall not favor or discriminate against a political party."

Defining Neighborhoods

1st Question: What is your neighborhood?

2nd Question: What are its geographic boundaries?

Examples of physical features defining a neighborhood boundary:

- Natural neighborhood dividing lines, such as highway or major roads, rivers, canals and/or hills
- Areas around parks or schools
- Other neighborhood landmarks

In the absence of public testimony, planning records and other similar documents may provide definition.

Beyond Neighborhoods: Defining Communities of Interest

1st Question: What defines your community?

- Geographic Area, plus
- Shared issue or characteristic
 - Shared social or economic interest
 - Impacted by city policies
- Tell us "your community's story"

2nd Question: Would this community benefit from being "included within a single district for purposes of its effective and fair representation"?

• Or would it benefit more from having multiple representatives?

Definitions of Communities of Interest may <u>not</u> include relationships with political parties, incumbents, or political candidates.
