BID FORM
RFB NO. 24-25-56

Project: ANNUAL CONTRAC TO SUPPLY COLD MIX ASPHALT MATERIALS

TO: THE CITY OF VISALIA PURCHASING DIVISION:

In compliance with the City's Notice Inviting Sealed Bids No. 24-25-56 dated: May 14, 2026, the undersigned BIDDER hereby proposes to furnish all materials, equipment, tools, labor appurtenances and incidentals required for the above stated project as set forth in the RFB, including all Exhibits and related contract documents therefore, and to perform all work in the manner and time prescribed therein.

BIDDER declares that this proposal is based upon careful examination of the Instructions to BIDDERS, and the contract requirements. If this bid is accepted for award, BIDDER agrees to enter into a contract with CITY at the unit and/or lump sum prices set forth in the following Bid Schedule.

BIDDER understands that a bid is required for the product and that compensation under the contract will be based upon the product condition received as stated in the bid specifications. It is agreed that all prices bid include all appurtenant expenses, royalties, and fees. All bids will be checked for accuracy. In the case of discrepancies in amounts bid, unit prices shall govern over extended amounts.

BIDDER hereby agrees to execute a contract within ten (10) working days, or such further time as may be allowed in writing by the Purchasing Division, after receiving notification of the acceptance of this Bid, and it is hereby mutually understood and agreed that in case the BIDDER does not, said Purchasing Division may proceed to award the contract to others.

BIDDER understands that the City's intent is to enter into an agreement with more than one Vendor. The most responsive, responsible bidder with the lowest True Delivered Cost per ton will be awarded the prime contract. There may be instances when the Prime Vendor cannot provide product when needed. It is for this reason the City may enter into an agreement with the responsive, responsible bidder with the second lowest True Delivered Cost per ton. Should this be the case, the City will always request product from the Prime Vendor first.

BIDDER further declares that he/she has not either directly or indirectly entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with said bid.

BIDDER has read and hereby agrees to the conditions stated in this proposal by affixing his/her signature on the Bid Form.

In the case of discrepancy in amounts bid, unit pricing shall prevail over extended amounts.

Basis of Award

Bidders shall provide a unit price per ton for the supply of cold mix asphalt for use by the Streets Division.

The City will calculate a True Delivered Cost (TDC) per ton for award using a standardized hauling cost factor and the one-way distance from the asphalt plant to the City's designated delivery point. For bidding purposes, delivery address shall be the City of Visalia's Corporation Yard, 336 N. Ben Maddox Way, Visalia, CA.

Award will be based on the lowest True Delivered Cost per ton, provided the bidder meets all technical, operational, and regulatory requirements of the RFB.

Section A – Bidder Information

Item	Description	Bidder Entry
1	Asphalt Plant Name	<u>Martin Marietta Materials - Visalia Asphalt</u>
2	Plant Address	<u>29779 Rd 68, Visalia, CA 93291</u>
3	Contact Person / Phone	<u>Pedro Ferreira/ 559-368-3242</u>

Section B – Bidder Pricing

Bidder hereby proposes to supply the City of Visalia, for the price listed (**Price shall include all costs associated with producing and loading asphalt meeting applicable State of California and local specifications.**) the following product:

Item	Description	Bidder Entry
T	3/8" Cold Mix Asphalt	<u>\$ 110</u> / ton *Does not include sales tax.

Award Tabulation (For Reference Only)

The City will use the following formula:

$$\text{TDC} = \text{T} + (0.22 \times \text{D})$$

Where:

T = Bidder's unit price (\$ per ton)

D = One-way distance from the asphalt plant to the City's designated delivery location (miles), as determined by the City

The factor 0.22 reflects the City's estimated hauling cost assumptions:

- Hauling rate = \$126/hour
- Average truck payload = 25 tons/load
- Average travel speed = 45 mph
- Derivation of Hauling Cost Factor
 - Hourly hauling rate: \$126/hour
 - Cost per mile: $\$126 \div 45 \text{ mph} = \2.80 per mile
 - Cost per ton per mile: $\$2.80 \div 25 \text{ tons} = \0.112 per ton per mile
 - Round-trip adjustment ($2 \times \$0.112$): = \$0.224 per ton per one-way mile
 - Rounded for bid purposes to: 0.22

Bidder determines:

- Bidder's unit price (**T**) = \$85.00 per ton (example)

City determines:

- Distance (**D**) = 25 miles (example)

City Calculation:

$$\begin{aligned} \text{TDC} &= \text{T} + (0.22 \times \text{D}) \\ \text{TDC} &= 85.00 + (0.22 \times 25) \\ \text{TDC} &= 85.00 + 5.50 \\ \text{TDC} &= \mathbf{\$90.50 \text{ per ton}} \end{aligned}$$

The City will apply this calculated value to all bids to determine the lowest True Delivered Cost per ton.
